

My tired & achy knees don't hurt anymore!

How I finally fixed my painful knee problem by bodywork teacher Rudy T. Hunter

My knees have cracked, popped, zigged and zagged for years until I finally found out how to heal them using three incredible essential oils.

At a recent lecture by Dr. Gary Young in New York, I heard him talk about using 3 amazing essential oils from Young Living which helped a handful of people avoid knee surgery. My knees are not that bad—but I want to avoid any hint of that kind of trouble. So I purchased the three oils (cost me about \$100) and put them on my achy knees morning and night. My plan was to do this faithfully for a month and see what happened for me.

I didn't make it to the month mark! The first day I put them on in the morning and the evening and I already noticed a big difference. But the next couple of days I seemed to backslide even though I put them on twice a day like clockwork. By the 8th day my knees felt brand new. I was climbing stairs with no problem & walking with a new ease. ***In just two weeks my knees stopped aching completely and they have remained strong, stable and flexible.***

I teach bodywork...so I know the knee joint is designed pretty much just like every other joint in the body. **Now I have a great recipe to help heal up necks, shoulders, hips, knees, ankles, elbows and wrists! I've used it on clients for all those joints with amazing results.** Thank you, Dr. Young!

Here's the magic formula from Dr. Young himself that makes the magic happen:

(Remember, the oils from Young Living are therapeutic-grade and pure. You can't expect the same results from any other oils available.)

Morning and Evening—I left the 3 bottles of oils on my bedside table so I'd remember to use them—it's 5 drops of each of the following 3 oils. Rub them on BOTH knees, even if it's only one that hurts because one knee compensates for the other when you walk and move.

**Young Living's Lavender Oil
Young Living's Lemongrass Oil
Young Living's Palo Santo Oil**

That's it! Morning and evening. Five drops of each oil on both knees in any order you like. So simple.

If you'd like to get some oils for yourself or your family please go to my website which is: <http://www.aromaguys.com> (that's my oil website with my partner George—the other AromaGuy!) and place your order.

When you go to this site you'll become part of our group (the AromaGuys) and you'll get access to me for any questions you may have. If you go to another site you won't become part of my group. Thanks for placing your order with me; I look forward to helping you.

Note: Palo Santo Oil is from the jungles of Ecuador and can only be found through Young Living. This bottle is 1/3 the size of the other oils in the recipe, so you'll need to order 3 bottles of this oil so you have an equal amount of all 3 oils to do the recipe. When placing an order be sure to opt in at the Distributor price (it doesn't obligate you to anything) to save 24% on your order!

P.S. If you're a dog lover you might want to go to my other website which is <http://www.rudyhunter.com> and check out the FREE help for dogs (and people too!) along with other tools for their health.
