

Product Summary

Slique Tea is an exotic drink from Young Living that has been formulated with natural ingredients to help support individual weight goals. This blend is rich in flavonoids, a dietary compound generally associated with helping maintain certain normal, healthy body functions. It also contains polyphenols, also known as catechins, which may be useful as part of a guilt-free weight-management regimen when combined with a healthy diet and physical activity.

Product Story

Slique tea is a delicious, premium blend of wholesome and rare ingredients. It offers a natural alternative to sugar-laden fruit drinks from concentrates, sodas, and coffees and can be used as part of a healthy weight-management program. It contains Ecuadorian ocotea leaf (*Ocotea quixos*), a member of the cinnamon family traditionally used by natives for health and wellness. Amazonian cacao is then added, along with pure, proprietary vanilla essential oil.

Slique tea also contains jade oolong tea leaves, sought after for their rich aroma and powerful antioxidant content. These leaves are handpicked from the high mountain regions of Taiwan, known for producing some of the world's finest teas. All of these ingredients are enhanced with 100% pure therapeutic-grade Arabian frankincense powder, an exclusive ingredient from Young Living's distillery in Salalah, Oman.

Primary Benefits
