

“Transfer Buying” and Setting Up Your AutoShip Order:

*Does a \$100 monthly product purchase
seem like a stretch for you?*

This fun exercise will show you how you can take \$100 you
are *ALREADY SPENDING IN YOUR NORMAL MONTHLY
BUDGET* at the drugstore/grocery store and transfer them to
purchase pure, chemical-free products from Young Living.

We call this “transfer buying”.

You may be surprised how easy it is to choose \$100 of
products you’ll use in *EVERY ROOM OF YOUR HOME*, every
month. What’s more, Young Living offers rebates and
credits towards *FREE PRODUCTS!!!*

[Does your drug store/grocery store do that?]

Here we go:

Step 1—Go through each room in your home. Write down a
list of what you already own in the categories of first aid,
nutritional supplements, personal care, home care,
children’s personal care and pet care.

Step 2—Look at the list below and highlight any item you
currently use in your home.

Step 3—Find the corresponding items suggested in the
products listed and highlight those items.

Step 4—Select at least \$100 PV [Personal Volume] from
your highlighted list of products. These products become
this month’s AutoShip Order for you. Easy-squeezy!

Step 5—Call Young Living Order Entry at 800-371-3515 and ask to set up your AutoShip Order. You may choose any available date of the month to have your order shipped—we suggest the middle of the month. [You can also do this really easily online if you'd prefer to—you know, at 3 a.m. in your bunny slippers!]

Step 6—Your AutoShip Order can be changed each and every month if you'd like—we change ours every month because there are so many new & fun products to try! The longer you stay on the AutoShip Program you'll earn Essential Reward Points that pay back in FREE PRODUCTS! Yay for free!!!
